Adam Song

Senior Full Stack Engineer

as.asuperstar05@gmail.com • https://softmeister.github.io/ • Wroclaw, Poland

SUMMARY

Senior Full Stack Web/Mobile App Engineer with strong experience in software development industry. Provides strong technical direction across multiple projects. Highly skilled and versatile software developer with expertise in programming, mobile app development, web development, databases, and cloud services. Seeking challenging opportunities to contribute my technical proficiency and creativity to innovative projects.

Experience

Brainhub

Senior Software Engineer 03/2022 – 06/2024

- Led the development and implementation of scalable websites with JavaScript frameworks including React, Next.js, and Vue.js.
- Participated in the development of s65408 Android 12 OS and customized several core system apps like Launcher, Settings, System UI components, and developed many other apps with Java and Kotlin.
- Developed frontend pages of NFT marketplaces using React and Web3.js.
- Design and develop high-performing backend systems using modern technologies and frameworks, such as Node.js, PHP/Laravel and Java/Spring Boot.
- Extensively used AWS Cloud technologies like Lambda, API Gateway, Cognito, EC2, S3, SNS, RDS, CloudWatch etc.

Ceneo

Full Stack Engineer 06/2021 - 02/2022

- Responsible for development of fintech, e-commerce websites using Python and Django for backend and React for frontend.
- Integrated third party APIs for the payment gateway setup like PayPal and Stripe, and established email and text messaging services using Sendgrid, Twilio and AWS SES.
- Maintained communication and relationships with stakeholders and clients to ensure estimates and projects were delivered on time.

Wezom

Full Stack Engineer 03/2019 - 05/2021

- Developed a dynamic and responsive website for Skyesports, a prominent platform in the gaming and esports industry.
- Designed the database structure using PostgreSQL and implemented Restful APIs and GraphQL.
- Established CI/CD pipeline using GitHub Actions and Jenkins for testing and automating development process.
- Worked with the business owner and customers to maintain scale and develop new features and functions across platforms.

Wezom

Front End Developer 07/2017 - 03/2019

- Started as a Front-end developer and mastered React, Redux, and TailwindCSS.
- Gained experience with PHP Frameworks, including WordPress, Laravel, and Symfony.
- Collaborated closely with senior developers to troubleshoot bugs, perform code reviews and implement performance enhancements.
- Worked in an Agile, collaborative environment to receive design requirements, peer program, and test applications.
